RECOMMENDATIONS

- Integrated search function onto Map page

- A new page accessible from the navigation bar with available events listed

- Re-naming the 'Events' page to make it more clear that it displays events the user has selected to attend, and to distinguish it from the new page listing available events

- Making it easier to navigate to the 'Add a Friend' page

- Increasing visibility of the search bar when adding a friend

- Providing more information on the map other than just generic location icons
